

# Naval Oceanographic Office

## OUR MISSION

Our Warrior-Scholars leverage expert knowledge in oceanography, hydrography, and bathymetry to deliver unparalleled strategic advantages to the Fleet.

By ensuring access, decision advantage, maneuverability, and increasing lethality of naval combat power, we advance global maritime security and operational excellence

Located at Stennis Space Center, MS on the beautiful MS Gulf Coast, NAVOCEANO employs a diverse workforce of civilians, military personnel, and contractors who collect oceanographic information using ships, uncrewed systems, in-situ sensors, satellites, and more to provide oceanographic knowledge across the full-spectrum of warfare.

## Our highly skilled team includes:

- Oceanographers
- Physicists
- Meteorologists
- Mathematicians
- Engineers
- Electronics Technicians
- Computer Scientists
- IT Specialists
- Cyber Security Experts, and more.

## Federal employee benefits include:

- Flexible Work Schedules
- 11 Paid Holidays Annually
- Professional Development
- Mentoring Program
- Professional Conferences
- Global Travel—See the World!!

**“Victory at Sea, Begins at NAVO”**

## WHY NAVO

Our Vision is to be the leading authority in oceanographic innovation and expertise, transforming our understanding of the environment to drive unparalleled effectiveness in maritime warfare.

DATA  
COLLECTION

PROCESSING  
AND  
DATABASING

MAPPING  
AND  
CHARTING

We are Warrior-Scholars; lifelong learners with over 150 years of accumulated knowledge and experience in data collection, processing, mapping and charting

**Think Strategically, Execute Tactically, Act Boldly, and Move Swiftly**  
to enhance naval combat lethality in and from the maritime domain.

## Strategic Plan 2025

Sets forth four Key Lines of Effort to guide the Command in confronting both current and future challenges. Together, we commit to serving our nation, our Navy, and each other with unwavering dedication,, while striving to deliver our very best every single day as we chart a bold course toward success

Survey Operations Center

### Key Lines of Effort:

1. Modernize the Force
2. Control the Seas
3. Strengthen Alliances
4. Innovate Relentlessly
